

TECHSPOT INFOTECH LLP

The logo is a circular emblem with a blue border. Inside the circle, there is a stylized 'Ti' in a blue square, with circuit-like lines extending from it. Below the circle, the text 'INNOVATE | DEVELOP | DELIVER' is written in a light blue font.

Student Name	Anushka Anil J adhav
Referance Number	TSI-2526-AI-AAJ9787
Company Name	TECHSPOT INFOTECH LLP
College Name	<u>DKTE</u> Society's Yashwantrao Chavan Polytechnic, Ichalkaranji

Anaconda Installation Guide

Step 1: Download Anaconda

- Go to the official website: [Anaconda Download](#)
- Download the installer for your operating system (Windows/ macOS/ Linux).

- 1.Open the downloaded installer file.
- 2.Click **Next**
- 3.Accept the license agreement.
- 4.Select **Just Me** (recommended).
- 5.Choose the installation location.
- 6.Click **Install**
- 7.Click Finish after installation completes.

Step 3: Verify Installation

Open Anaconda Prompt (Windows) or a terminal (macOS/Linux) and run:

```
conda -version
```

Expected output:

```
conda 25.x.x
```

Step 4: Update Conda

```
conda update conda
```

Step 5: Create a New Environment

```
conda create -n myenv python=3.12
```

Step 6: Activate the Environment

```
conda activate myenv
```

Step 7: Launch Jupyter Notebook

or open Anaconda Navigator from the Start Menu

Step 8: Check Installed Packages

```
conda list
```

Step 9: Deactivate Environment

```
conda deactivate
```

Final Result Anaconda is installed and ready for Python development, data science, machine learning, and running Jupyter Notebook.
